made by other male member in the basic family structure. The transformation of social fabric of the Indian society, in term of increased education status of women and varied aspirations for better living, necessitated a change in the life style of Indian women. She has completed with man and successfully stood up with him in every walk of life and business is no exception for this. These women leaders are persuasive and willing to take risks. Ability to learn quickly from her ability, open style of problem solving, willingness, to take risk and chances ability to motivate people knowing how to win and lose gracefully are the strengths of the Indian women entrepreneur. Today Is women have not only safely entered into job situations but have also immersed professionals and executives in many fields. They have found acceptance in the family as well as society. However their entry into fiercely competitive business world has a great challenge. Besides, family and social problem they faced problem in raising both working capital finance and long term finance.

CONCEPT OF WOMEN ENTREPRENEURS

Women entrepreneurs may be define as the women or a group of women who invite, organise and operate a business enterprise. The Government of India has define women entrepreneurs as an enterprise owned and

controlled by women having a minimum financial interest of 51% of the capital and giving at least women entrepreneurs play the vital role particularly in terms of their contribution to the economic development. Women of economic growth by establishing their new venture women entrepreneur generate new jobs for themselves and others and also provide society with different salutation to management organization and business problems. such a situation is describe as pull factor while in push factor women engaged in business activities due to family compulsion and the responsibility is thrust upon them.

The entry of women into business in India is traced out

As an extension women are self determination for recognition self \square esteem and career goal the key driver for taking up entrepreneurship by women. However, dismal economic conditions of the women arising out of unemployment in the family and divorce can compel women in to entrepreneur activities. The day have gone when women always passed her whole life within the boundaries of house now women are found indulged in every line in business. The entry of women into business in India is an extension of their normal home activities.

REASONS FOR SLOW PROGESS OF WOMEN ENTREPRENEURES IN INDIA:

The Problem and constraints experienced by women entrepreneurs have resulted in restricting the expansion by women entrepreneur are:

1. The greatest deterrent to women entrepreneurs is that they are women. Male members think it a big risk financing the ventures run by women.

- 2. Women are not treated equal right to men that act as a barrier to women □s entry into business.
- 3. Lack of self-confidence, will-power, strong mental out-look and optimistic attitude amongst women creates a fear from committing mistakes with doing their piece of work.
- 4. Women in India lead a protected life. They are even less educated, economically not stable nor self-dependent which reduce their ability to bear risk and uncertainties involved in a business unit.
- 5. Women s family obligations also bar them from becoming successful entrepreneur in both developed and developing nations.
- 6. The educations level and family background of husband also influences women participation in the field of enterprise.
- 7. High production cost of same business operation adversely affect the development of women entrepreneurs.
- 8. Lack of awareness about the financial assistance in the form of incentives, loans and schemes.

A part from the above discussed problem there may occurs other series of serious problem faced by women entrepreneurs as improper infrastructural facilities, high cost of production, attitude of people of society the women modern business outlook low need of enterprise. Women also tend to start business about ten year than men an average.

SUGGESTIONS FOR THE GROWTH OF WOMEN ENTREPRENURS

Right efforts from all the required in the development of women entrepreneurs and their greater participation in the entrepreneurial activities. The following measures are suggested to empower the women to seize various opportunities are faced challenges in business.

- 1. There should be a inspire, encourage, motivate and co-operate women entrepreneurs.
- 2. Organize training programmes to develop professional competencies in managerial, leadership, production process profit planning and to improve their over- all personality slandered.
- 3. Educational institutes should tie up with various government and non-government agencies to assist into entrepreneurship development to plan business projects.
- 4. Women in business should be offered soft loan and subside for encouraging them industrial activities.

Women participation in many kinds of economic activities to complement to their family income, their participation in to way reduces their family duties. The task of women has become fuller of challenges. Let us all make efforts to help women rediscover her.
